

PRESCHOOL PROGRAM

Fairmont's Early Childhood Education program is designed to engage and excite each child towards his or her full potential. At tender, young ages children need to feel loved, safe and valued. Fairmont partners with families to create this foundation so that children are prepared to approach the academic and social demands of school with confidence. Once ready, children in our P4 program benefit from Kindergarten-level instruction, gaining all the tools necessary to succeed in our accelerated Kindergarten/Elementary program.

At each age level, Fairmont's nurturing staff uses play, song, structure and creativity to introduce children to basic skills and to establish their love for learning.
